## BUSINESS ACCOUNTING

Your business is growing. So is its complexity in your service offering.

That means your accounting needs are changing and growing in complexity as well.

Hauser Jones & Sas partners with small- to medium-sized businesses to fulfill all of their accounting needs.

From small projects (like providing payroll services for five employees) to performing the entire financial close and reporting process, our team is ready and eager to be the answer to all your accounting problems.

## LET'S MAKE A PLAN

No two businesses are the same, so we customize our offering to each unique entity we work with. Instead of starting with a bunch of boxes for you to choose from, we prefer to sit down, chat, and complete a thorough consult with management to assess the scope of your project.

Then, we use that information to form your customized service offering and work plan.

## CONSULTATIVE APPROACH

We understand that accounting and bookkeeping can be daunting. The rules change all the time, and it can create anxiety if you aren't sure you are completing everything correctly. That is where Hauser Jones & Sas comes in.

We know the rules. More than that—we have a deep understanding of the rules, which allows us to reduce our client's bookkeeping and accounting fears, so they can do what they do best—run their business.
