

Tax Preparation & Consulting

TAX PREPARATION

Many financial events can influence your tax position over a period of years. That's why it's so crucial to obtain expert advice on tax preparation strategies available to you before you authorize a major investment or establish a long range benefits program.

Hauser Jones & Sas works with you and your business to develop sound, yet innovative, solutions to your tax preparation challenges.

We are always up to date on the current tax laws, latest tax changes, regulations, and complex tax codes that can affect you and your business.

And, many of our team members hold a master of tax and/or master of accounting degrees.

“Personal and business tax preparation done right—giving you peace of mind.”

WHAT DOES THAT MEAN FOR YOU?

By working with our team year-round (instead of only at tax time) we provide tax projections and proactive tax planning strategies. We can then estimate your tax liability in advance of filing your taxes—allowing you to be prepared and in control.

CONSULTATIVE APPROACH

We understand that taxes can be daunting. The rules change all the time, and that can create anxiety if you aren't sure you are completing everything correctly. That is where Hauser Jones & Sas comes in.

We know the rules. More than that—we have a deep understanding of how to work *within* the rules, which allows us to reduce our client's tax fears, so they can do what they do best—run their business.

WHERE TO BEGIN?

Whether you aren't sure where to start, or have an idea, but need help—Hauser Jones & Sas is here for you. Our team of experts will use a readiness assessment to work with your team to identify (and close) the gaps to help minimize your taxes.
